Maui Jim®

SUNGLASSES

at Peter Ivins Eye Care

Arguably the best sunglasses in the world

The sun will guide us

Why Maui Jim are arguably the best sunglasses in the world.

Maui Jim take their cues from the sun. They know that it's as much a part of our lives as the air that we breathe - we work in it, we play in it, we relax in it. They are always finding new ways to reveal more of the vibrant colours of the world while protecting your eyes from the effects of harsh glare and harmful rays.

No other sunglass offers the same level of visual acuity, protection and colour enhancement as Maui Jim patented PolarisedPlus2 lenses.

RECOMMENDED
SKIN CANCER FOUNDATION

Protect yourself in the sun

All Maui Jim sunglasses are recommended by The Skin Cancer Foundation as an effective UV filter for the eyes and surrounding skin.

Leading lens technology lets the colours shine

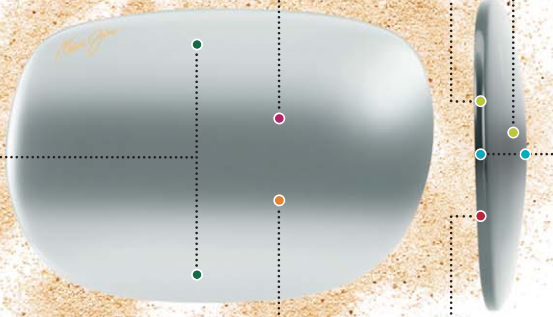
PolarizedPlus2 lenses wipe out 99.9% of glare, manage 95% of HEV and block 100% of harmful UV while boosting colour to unmatched levels.

Maui Jim lenses have the best polarising technology - so glare is reduced.
... have the best colour balance technology - so you see nature as intended.
... have the highest UV protection of any sunglasses in the world - so your eyes are fully protected.

POLARISATION
Proprietary, high-efficiency polarised film eliminates glare

CLEARSHELL
Proprietary scratch resistance for enhanced performance and durability on the front and back of the lens

BI-GRADIENT MIRROR
Mirror at the top and bottom of the lens squints for you, allowing the eyes to relax



WATERPROOF & OLEOPHOBIC
Proprietary lens treatments shed water and repel grease

COLOUR ENHANCING
Patented technology enhances natural light instead of dimming it, delivering exceptional colour and clarity

ANTI-REFLECTIVE
Proprietary backside coating blocks reflective light and glare from behind and below

Vivid Performance

PolarisedPlus2 technology is designed to enhance your view in every sunlight condition.

Neutral Grey

Bright direct sunlight.
Offers the highest available light reduction for bright, direct sunlight while enhancing colour and contrast.

HCL Bronze

Full sun to overcast.
High contrast lens - excellent contrast and colour enhancement for everyday variable light conditions. Great if you love a warm, subtle bronze tone.

Maui Rose

Full sun to overcast.
The most comfortable lens colour to wear as it relaxes the eye muscles. Excellent contrast and colour enhancement. Provides a soothing rose tone.

Maui HT

Variable light conditions.
High transmission, for times when most lenses would be too dark. Offers the highest available lens transmission allowing for incredible depth perception, with excellent colour enhancement and contrast.

Blue Hawaii

Developed as a fashionable option for top selling styles, Blue Hawaii provides a stylish new look that offers the same amazing colour enhancement and clarity as all other Maui Jim lenses.

Lens Materials

SuperThin (ST) Glass. Provides the absolute crispest optics available. 20% thinner and lighter than standard glass, it offers the best scratch and solvent resistance. *Not available in prescription.*

MauiBrilliant. Maui Jim's most advanced lens material that features optics nearly as clear as glass with just one-third of the weight. *Available in single vision and progressive prescriptions.*

MauiPure. Our most popular plano lens material. It combines optics almost as crisp as SuperThin Glass with ultra light weight and excellent shatter resistance. *Not available in prescription.*

Maui Evolution. Leverages the best properties of SuperThin Glass and polycarbonate to create a high-index, lightweight, scratch and impact resistant material. *Available in single vision and progressive prescriptions.*

Polycarbonate. Designed to offer outstanding shatter resistance and good optics. It's an excellent choice for fast-paced activities when durability and weight are a priority. *Available in single vision and progressive prescriptions.*

Maui Jim sunglasses are available with plano lenses or can be made to any prescription, including reading and varifocal.
